

ESPIRGARDEN

Hoses for gardening

CHARACTERISTICS

Hose made by extrusion of vinyl compounds with an outer layer of blue PVC anti-twist and anti-bending, interior white layer for food use and anti-algae and reinforced by a polyester mesh in order to withstand substantial working pressures and provide with a resistance to breakage from stretching. Non-toxic and suitable for food use, except fatty foods. Minimal risk of constriction, yet very flexible and easy to use: no twist and no kink. Ca/Pb/Ba free. Resistant to environmental agents and a wide range of chemical products.

APPLICATIONS

Ideal hose for gardening, horticulture, floriculture and cleaning of pleasure boats.

TEMPERATURES

From -10°C to +60°C.
